”

Steve and the team are magical at their craft. Everyone is so friendly and approachable through out the whole process. We could tell Steve is very well respected with all trades. He is good at delegating and directing in a friendly, concise way. He is organised and efficient and has wonderful communication throughout the whole renovation.

He genuinely just wants to see you happy. He listens to what you want and finds a way to make it work. Even when problems arise you can see him work through every avenue he needs to to secure what you desire. He steps up for you when he needs to and really supports you, always saying 'leave it with me'. He's been supportive since the project was completed and has remained communicative and helpful.

Some of his contractors/staff that we got to work closely with..

Brownie is a genuine ray of sun light. He is resilient, happy, generous, consistent and the person you want on your worksite. Nothing was ever too much trouble.

Cam is one of the most down to earth, kind, patient and lovely people you'll ever meet. He just wants to do anything he can for you.

I'm in awe of the work everyone has done. We can't believe that this is our house and we get to live in it.
