CASE STUDY

BOUNTY KEY

This project was one that every member of the team enjoyed building. It was a major renovation in Forster Keys, which is a suburb of Forster/Tuncurry NSW. Situated on the beautiful waterways, it was a pleasure to go to work everyday.

Ray and Helen were fantastic clients who have moved into the area from interstate. They were living in Adelaide throughout the whole build yet were kept fully up to date with the progress.

We do this with Buildertrend project management software. It really is a game-changer.

The home is of the 70's era and was in need of a major renovation.

AFTER

We are so proud of it that we plan to enter it into the HIA renovation awards this year. Forster Keys is full of homes from this era; we find that we are continuously working in the area bringing life back to these old beauty's. This is the kind of project we love to work on, especially with clients like these guys.

Enjoy!

TESTIMONIAL

”

“As interstate residents living in South Australia, we did extensive research locally here in Forster to investigate recommendations for a local builder to manage our Forster project renovations. B&S Nelson was a name that consistently came up, and after meeting with Steve and discussing our reno plans, we felt very comfortable to leave our project in his hands. We have no hesitation in saying that we have made the right decisions. Living interstate, we really did rely on Steve not only as our builder but as our project manager. Steve constantly sent us a flow of photos of our site progress. We truly felt confident and informed through the total renovation. During our few onsite visits, it was great to meet his team of builders, plumbers, electricians, and painters who all added to the outstanding result we obtained with our Forster home. Every day now we enjoy the results of the work, Steve's team achieved and would be very happy to recommend B&S Nelson to anyone considering any home renovations.
